20 May 1970

Are we following your experience even a little? What should we do to be a little more in the movement?

Some are beginning to have experiences; some have the experiences but do not know! (Mother laughs) It has some effect.

The greatest difficulty, as always, is the mind, because it wants to understand in its own way. That is the difficulty.... There are some who would go much more quickly if they did not have that. They have the feeling that if they do not understand mentally they have not understood.
